What is the process for getting help with a new special event web site project?

The process varies depending on the type of project.

For personal web pages and group sites on the my.fit.edu domain, please see:

- How can I access my udrive?
- How to set udrive permissions
- How to create a personal web page with your Tracks Account

For Official FIT Sites, please see:

- Is there a formal Web Project Process for new sites?
- How can I get ready for my project consultation?
- Are there any fees or costs associated with web design services provided by University Web Services?

When you are ready, submit your request to us at http://webservices.fit.edu
