How do I stop receiving spam reports? (Faculty/Staff)

1. Go to the website https://spam.fit.edu
2. Login with your TRACKS (Exchange Email) account. Ex: username@fit.edu and password
3. In the menu on the left hand side click on “Preferences.”
4. Under the “Antispam Management” section, click the word “Off” for “Receive spam report:”
5. Click on “Apply” button.
6. Click the “Log Out” button in the upper right when finished.

Be Aware you have to do this for each alias address associated with your account to completely stop receiving the messages.

Then you can login to your_username@go.fit.edu repeat steps 1-6, and then your_username@it.fit.edu and repeat steps 1-6, which both user your TRACKS password as the password.
