Networking
Connect to a WIFI network

Connecting to FLTech-Dorms:

1. You will first need to register your device's MAC address. To do so, follow [this link](#), and fill out the required information. It is the same process outlined for wired devices above.
2. After you have successfully completed the registration process, on the device you want to connect select the WiFi network called "FLTech-Dorms". When prompted for a password, enter "FLTechPanthers".

Connecting to Eduroam:

Please keep in mind that only devices that support the "WPA 2 Enterprise" security protocol will connect successfully. If you are unsure whether your device supports WPA 2 Enterprise or not, please consult the manufacturer.

Windows

1. Open the network icon in the lower-right corner of your screen. Find the [eduroam](#) SSID and choose it.
