As soon as you have been admitted to the University and been given a TRACKS account, your next step is PantherPass.

With many items that need to be completed as you transition into the University, PantherPass is the key to completing all the necessary processes at your own pace and from the convenience of your home computer.

You can access PantherPass at https://pantherpass.fit.edu/. Once you have completed all the required steps, you will be issued a printable PantherPass that will act as your express ticket through the on-site check in process once you arrive on campus for orientation.

**Where to Start?**

After you have activated your TRACKS account, you can sign into PantherPass by clicking the button or going to https://pantherpass.fit.edu/start. Your sign in at the CAS screen is your TRACKS username and password.
