How do I access my courses online?

The way in which you access your courses online depends on what program of study you are enrolled in. See below to confirm which Learning Management System (LMS) is the one you should use.

Canvas

The Canvas LMS can be accessed by going to either canvas.fit.edu or by going to fit.instructure.com with your TRACKS username and password. Please note this is **NOT** your Florida Institute of Technology Email as this will **NOT** be accepted and instead will give an error Invalid Credentials when attempting to sign in.

Canvas is used by the students in the following programs of study:

- Main Campus - Melbourne Undergraduate
- Main Campus - Melbourne Graduate
- Continuing Education (Applied Behavioral Analysis/Professional Development Program)
- Extended Studies
- Flight
- Virtual Graduate

Florida Tech Online (Bisk)

Florida Tech Online has a proprietary LMS which only Bisk (UA) students can use. Bisk students can go to <https://bisk-edu-community.force.com/impfit/s/landing-page> and sign in with either their Bisk username and password or their TRACKS username and password.

If you are having issues accessing Canvas with your TRACKS username it is most likely due to an incorrect Username or Password. Please click [Here](#) and follow the appropriate steps.
