

# Blueshark Cluster

## How to request access to the Blueshark Cluster?

Faculty can request access to the Blueshark cluster by entering a call ticket at <https://support.fit.edu/tsc/>.

For an entire course to get access, the course instructor has to request access and provide all the TRACKS accounts needing access by entering a call ticket at <https://support.fit.edu/tsc/>.

For a guest, visitor, or student to get access, they must have a faculty sponser to get access to the cluster. The sponsoring professor should enter a call ticket requesting access for the respective individual.
