

Jabber

How do I check my voicemail through Jabber? Checking Voicemail with Jabber

To access voice messages, click on the voicemail button

From the list, click on a message you wish to listen to and it will display to the right, along with play and stop controls.

The message will play through your computer speakers.

You can delete a message by right clicking the message and then clicking delete.

Note: deleting a message from Jabber will also delete message from your email and the voicemail system
