

Jabber

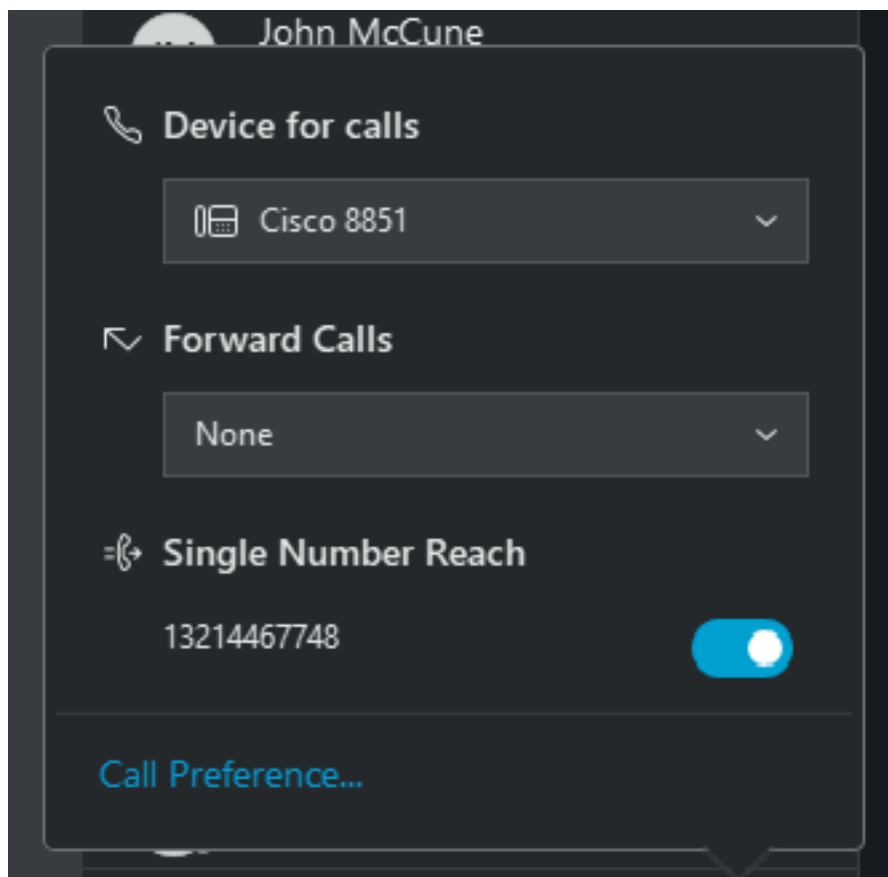

How do I switch between controlling my Desk Phone and using Jabber as a Softphone? Switching Jabber Between Phone Control Modes

Jabber is able to function as a softphone allowing you to make and receive calls via your computer and as a remote control for your deskphone.

To change modes click the phone control button:

In the Phone Control menu:

Select the drop down for "**Device for calls**".

- If you have a dedicated Cisco desk phone it will be listed here and typically

Jabber

displays as "**Cisco 8811**" or "**Cisco 8851**"

- The "**Use my computer**" option will make Jabber function as a Softphone, allowing you to make calls via your computer.
