What is Panther Pass and how do I access it?

There are many items that need to be completed as you transition into the University. PantherPass is the key to completing all the necessary processes at your own pace and from the convenience of your home computer. You can access PantherPass at <https://pantherpass.fit.edu/> . Once you have completed all the required steps, you will be issued a printable PantherPass that will act as your express ticket through the on-site check in process once you arrive on campus for orientation.
